Environmental  
Conservation

# **Application Form NY-2A**

## **New and Existing Publicly Owned Treatment Works**

### **State Pollutant Discharge Elimination System Permitting Program**

**Who Must Complete Form NY-2A?**

In accordance with New York State Environmental Conservation Law (ECL) Section 17-0803, proposed and existing dischargers of pollutants shall apply and obtain permit coverage to discharge pollutants in the waters of the state. The New York State Department of Environmental Conservation (NYSDEC or DEC) has designated, per Title 6 of the New York Codes, Rules and Regulations (6 NYCRR) 750-1.6(e), that all new and existing must complete a designated application form to obtain a State Pollution Discharge Elimination System (SPDES) permit. NYSDEC has designated this Form NY-2A for publicly owned treatment works (POTWs).

NYSDEC has adopted a modified version of the United States Environmental Protection Agency's (USEPA) June 2019 revised application forms for use in the SPDES program. The application form can be found on the [SPDES website](#).

**Where to File Your Completed Form**

Unless otherwise instructed in a Request for Information (RFI) from NYSDEC, all applications must be filed with the Regional Permit Administrator for the NYSDEC Region in which the discharge is located. It is preferred that applications be submitted electronically, as a PDF via email. All applications can be sent to the general SPDES application email box at [SPDESapp@dec.ny.gov](mailto:SPDESapp@dec.ny.gov).

Exhibit 2A-1 (next page) provides contact information for the NYSDEC Central Office and each of the 9 regional offices. Since the exhibit's content is subject to change, consult [NYSDEC's website for the latest information](#).

**When to File Your Completed Form**

Pursuant to 6 NYCRR 750-1.18, Form NY-2A must be submitted at least 180 days before your present SPDES permit expires. If you are a new discharger, or planning a facility upgrade or expansion, Form NY-2A must be submitted and a SPDES permit issued prior to the start of construction. It is suggested that this application be submitted at least 180 days before the date on which construction is to commence.

**Fees**

NYSDEC does not require submission of any fees for processing this application. Discharge fees are required annually, based on the volume of wastewater discharged, pursuant to ECL 72-0602.

**Public Availability of Submitted Information**

Pursuant to 6 NYCRR 750-1.23(a), DEC will make information from SPDES permit application forms available to the public for inspection and copying upon request. You may not claim any information on Form NY-2A (or related attachments) as confidential.

You may make a claim of confidentiality for any information that you submit to DEC that goes beyond the information required by Form NY-2A. If you do not assert a claim of confidentiality at the time you submit your information to the NYSDEC, the information may be made available to the public without further notice to you.

NYSDEC will handle claims of confidentiality in accordance with the Agency's Confidentiality of Information regulations in 6 NYCRR 750-1.23 and 6 NYCRR Part 616.

**Completion of Forms**

Form NY-2A is divided into six major sections. It also contains five effluent monitoring tables (Tables A through E), a water treatment chemical (WTC) usage table (Table F) and an industrial discharge information table (Table G), all located at the end of the form. Note that not all applicants are required to complete each section of the form or all of the tables. The questions on the form will direct you to the items and tables you must complete.

Print or type in the specified areas only. If you do not have enough space on the form to answer a question, you may continue on additional sheets, as necessary, using a format consistent with the form.

For existing facilities, provide your DEC Identification Number (DEC ID), SPDES permit number, and facility name at the top of each page of Form NY-2A and any attachments. If your facility is new, write or type "New Facility" in the space provided for the DEC ID and SPDES permit number. If you do not know your DEC ID, contact your Regional Permit Administrator. See Exhibit 2A-1 for contact information. Additionally, for Tables A through E, provide the applicable outfall number at the top of each page.

Do not leave any response areas blank unless the form directs you to skip them. If the form directs you to respond to an item that does not apply to your facility or activity, enter "NA" for "not applicable" to show that you considered the item and determined a response was not necessary for your facility.

If you have previously submitted information that answers a specific question to NYSDEC, you may either repeat the information in the space provided or attach a copy of the previous submission.

**Note for New Dischargers**

Any new facilities that are applying for a SPDES permit must obtain a permit prior to construction and may be required to submit the same information required of existing facilities, except that new facilities may be required to submit projected or estimated data in lieu of actual measurements. New facilities must also include the expected discharge date and any engineering reports for the facility.

NYSDEC will consider your application complete when it and any supplementary material are received and completed according to the authority's satisfaction. NYSDEC will judge the completeness of any application independently of the status of any other permit application or permit for the same facility or activity. Note, that construction projects cannot proceed until all required permits have been obtained.

**FORM NY-2A—GENERAL INSTRUCTIONS CONTINUED**

**Exhibit 2A-1. Addresses of NYSDEC Contacts and Covered Counties**

**Section 1. Basic Application Information for All Applicants**

**Facility Information**

**Item 1.1.** Enter the discharger's facility name. Do not use a colloquial name. Provide the *mailing address* of the facility. Next, give the name (first and last), title, work telephone number, and email address of the person who is thoroughly familiar with the operation of the facility and with the facts reported in this application.

Include a complete *location address* for the facility if different from the mailing address. If the facility lacks a street name or route number, give the most accurate, alternative geographic information (e.g., section number or quarter section number from county records or "at intersection of Routes 425 and 22").

**Item 1.2.** Indicate the permit action being requested as a result of this application. If a modification, please describe the request.

**Applicant Information**

**Item 1.3.** Indicate if the applicant is different from the entity listed under Item 1.1. If so, specify the applicant name and address. Provide the name (first and last) of a contact, including his/her title, telephone number, and email address.

**Item 1.4.** Indicate if the applicant is the facility's owner, operator, or both.

**Item 1.5.** Specify whether NYSDEC should send correspondence to the facility or the applicant.

**Existing Environmental Permits**

**Item 1.6.** Indicate all environmental permits or construction approvals received or applied for (including dates) under the noted programs. Print or type the corresponding permit number for each.

**Collection System and Population Served**

**Item 1.7.** Specify each of the municipalities served by the treatment works, including publicly owned sewer systems (POSS). For each municipality, indicate the POSS registration number (if applicable), population served, the length and percentage of each collection system type if known, and collection system ownership and maintenance status. Attach additional sheets if necessary. Finally, indicate the total length and percentage of sewer line each type comprises. Do not report privately owned collection systems discharging industrial waste to the treatment works in Item 1.7. Those facilities must be reported on Table G.

**Indian Country**

**Item 1.8.** Indicate if the POTW is located in Indian Country.

**Item 1.9.** Note whether the treatment works discharges to a receiving stream that flows through Indian Country.

**Design and Actual Flow Rates**

**Item 1.10.** Provide the facility's *design average* flow rate, in million gallons per day (MGD), as defined in the Ten State Standards. Next, specify the facility's *actual* annual average daily flow rate and maximum daily flow rate for each of the previous three years.

**Discharge Points by Type**

**Item 1.11.** Provide the facility's total number of discharge points to waters of the State by type (e.g., treated effluent, combined sewer

overflows, bypasses, and constructed emergency overflows). Please note that sanitary sewer overflows, bypasses and emergency overflows are not permissible discharges, but must be identified in the application, should they exist.

**Sole Source Aquifer**

**Item 1.12.** Identify if the facility is located within a sole source aquifer as shown in Exhibit 2A-3. If yes, you must also complete the [Sole Source Aquifer Supplement B form](#).

**Outfalls and Other Discharge or Disposal Methods**

***Outfalls to Groundwaters & Surfaces Waters Not Considered Waters of the State***

**Item 1.13.** Indicate whether the POTW discharges wastewater to basins, ponds, or other surface impoundments that do not have outlets for discharge to waters of the State. If yes, continue to Item 1.14. If no, skip to Item 1.15.

**Item 1.14.** Specify the location of each surface impoundment, the average daily volume discharged to each surface impoundment in gallons per day (GPD), and whether the discharge is continuous or intermittent.

**Item 1.15.** Indicate if the facility applies wastewater to land or to groundwater. If yes, continue to Item 1.16. If no, skip to Item 1.17.

**Item 1.16.** Provide the location of each land application site; the depth to water table, soil type, size of each land application site; the average daily volume applied to each land application site, and whether the land application is continuous or intermittent.

**Item 1.17.** Note whether the facility's effluent is transported to another facility for treatment prior to discharge. If yes, continue to Item 1.18. If no, skip to Item 1.22.

**Item 1.18.** Describe the means by which the effluent is transported, such as by tank truck or pipe.

**Item 1.19.** Specify whether the facility's effluent is transported by a party other than the applicant. If yes, continue to Item 1.20. If no, skip to Item 1.21.

**Item 1.20.** Provide the name, mailing address, contact person, phone number, and email address of the entity that transports the discharge.

**Item 1.21.** Provide the name, mailing address, contact person, phone number, email address, and SPDES permit number (if any) of the receiving facility. Also specify the average daily flow rate from the facility into the receiving facility in MGD.

**Item 1.22.** Indicate if wastewater is disposed of in a manner other than those already mentioned in Items 1.13 through 1.21 that have outlets to groundwaters of the State, such as underground percolation and underground injections. If yes, continue to Item 1.23. If no, skip to Item 1.24.

**Item 1.23.** Provide a description of the disposal method, including the location and size of each disposal site; the annual average daily discharge volume (in GPD), and whether disposal through this method is continuous or intermittent.

**Variance Requests**

**Item 1.24.** Check the authorized variances or water quality variances (6 NYCRR 702.17) that you plan to request or renew. Pursuant to 6 NYCRR 750-1.7(f), you are required to submit any variance requests at this time. For water quality variances, you must submit all information required in 6 NYCRR 702.17.

Contact NYSDEC with any questions about the variance process. The ability to request a variance is not limited to the time of application, and an applicant may request a variance consistent with statutory and regulatory requirements.

**Contractor Information**

**Item 1.25.** Indicate if any of the operational or maintenance activities associated with wastewater treatment and effluent quality of the POTW are the responsibility of a contractor. If yes, continue to Item 1.26. If no, skip to Section 2.

**Item 1.26.** Provide a listing of all contractors (by company name). For each, specify the mailing address, a contact name, telephone number, and email address. Also summarize the operational and maintenance responsibilities of each contractor.

**Section 2. Additional Information****Resiliency**

**Item 2.1.** Indicate whether the collection system or the treatment plant include any pump stations. If yes, complete Table H to identify each pump station, the owner, general location, latitude and longitude, and the floor elevation (using NAVD88 datum). If not, continue to Item 2.2.

**Inflow and Infiltration**

**Item 2.2.** Estimate the POTW's current average daily volume of inflow and infiltration (in GPD) and steps the facility is taking to minimize inflow and infiltration. No specific method of estimation is required, but should be data-driven. For guidance, read this [USEPA Region 1 guidance document](#).

**Topographic Map**

**Item 2.3.** Prepare a topographic map (or other map if a topographic map is unavailable) extending at least one mile beyond property boundaries of the treatment plant, including all unit processes and identifying the following, as applicable: (1) treatment plant area and unit processes; (2) major pipes or other structures through which wastewater enters the treatment plant and the pipes or other structures through which treated wastewater is discharged from the treatment plant (include outfalls from bypass piping, if applicable); (3) each well where fluids from the treatment plant are injected underground; (4) wells, springs, and other surface water bodies listed in public records or otherwise known to the applicant within ¼ mile of the treatment works' property boundaries; (5) sewage sludge management facilities (including onsite treatment, storage, and disposal sites); and (6) location at which waste classified as hazardous under the Resource Conservation and Recovery Act (RCRA) enters the treatment plant by truck, rail, or dedicated pipe.

On each map, include the map scale, a meridian arrow showing north, and latitude and longitude to the nearest second. Latitude and longitude coordinates may be obtained in a variety of ways, including use of hand held devices (e.g., a GPS enabled smartphone), internet mapping tools (e.g., NASA.gov),

GIS (e.g., ArcView), or paper maps from trusted sources (e.g., USGS). On all maps of rivers, show the direction of the current. In tidal waters, show the directions of ebb and flow tides.

You may develop your map by going to [USGS's National Map website](#). (For a map from this site, use the traditional 7.5-minute quadrangle format. If none is available, use a USGS 15-minute series map.) You may also use a plat or other appropriate map. Briefly describe land uses in the map area (e.g., residential, commercial). An example of an acceptable location map is shown as Exhibit 2A–2 at the end of these instructions. **Note:** Exhibit 2A–2 is provided for illustration only; it does not show an actual facility. Indicate when you have completed your topographic map and attached it to the application.

**Flow Diagram**

**Item 2.4.** Provide a process flow diagram or schematic showing the processes of the treatment plant, including all bypass piping and all backup power sources or redundancy in the system. This includes a water balance showing all treatment units, including disinfection (e.g., chlorination and dechlorination), and showing daily average flow rates at influent and discharge points, and approximate daily flow rates between treatment units. Also provide a narrative description of the diagram/schematic. Answer "Yes" to Item 2.4 once you have completed and attached your diagram to the application.

**Scheduled Improvements and Schedules of Implementation**

**Item 2.5.** Indicate whether any facility modifications or improvements, subject to 6 NYCRR 750-2.10, are currently scheduled over the next 5 years. If yes, list and briefly describe each project and continue to Item 2.6. If no, skip to Section 3.

**Item 2.6.** For each scheduled improvement, indicate the outfall number of each outfall affected and the scheduled or actual dates of completion for the following: (1) commencement of construction, (2) completion of construction, (3) commencement of discharge, and (4) attainment of operational level.

**Item 2.7.** Note whether the appropriate permits/clearances concerning other federal/state requirements have been obtained and briefly explain your response.

**Section 3. Information on Effluent Discharges****Description of Outfalls**

**Item 3.1.** Provide a description (as detailed below) of each of the POTW's wastewater and stormwater discharge outfalls. The application form provides reporting space for three outfalls. If your facility has more than this number, attach additional sheets as necessary.

For each outfall, provide the outfall number. Indicate the county and city or town where each outfall is located. Note the distance from shore in feet and the depth below the surface in feet. Specify the average daily flow rate through the outfall in MGD. Also specify the latitude and longitude of each outfall to the nearest second. See Item 2.3 instructions for guidance on determining the latitude and longitude coordinates. The location of each outfall (i.e., where the coordinates are collected) shall be the point where the discharge is released into a water of the State. For further guidance, refer to [USEPA's Lat/Long Data Standard](#).

**Seasonal or Periodic Discharge Data**

**Item 3.2.** Indicate whether any of the outfalls described under Item 3.1 have, or expect to have, seasonal or non-continuous discharges. If yes, continue to Item 3.3. If no, skip to Item 3.4.

**Item 3.3.** Specify the following for each applicable outfall: (1) number of times per year discharge occurs, (2) average duration of each discharge, (3) average flow of each discharge in MGD, and (4) months in which discharge occurs. For existing facilities, use actual historical data and for new facilities, provide estimated data.

**Diffuser Type**

**Item 3.4.** Note whether any of the outfalls listed under Item 3.1 are equipped with a diffuser. If no, skip to Item 3.6.

**Item 3.5.** Briefly describe the diffuser type at each applicable outfall.

**Outfall Mixing Zone Form**

**Item 3.6.** Indicate which outfall mixing zone form has been completed. All applicants must complete the simple form or the detailed form. The detailed form is required for all new, expanded, significantly upgraded facilities, or as otherwise informed by NYSDEC. Mixing zone forms can be found on the [SPDES website](#).

**Water Treatment Chemicals**

**Item 3.7.** Note whether the POTW utilizes or plans to utilize water treatment chemicals in the treatment process that may be discharged from one or more outfalls. If yes, complete Table F.

**Note:** For any new or increased dosage requests, you must attach a completed [WTC Usage Notification Form](#).

**Receiving Water Description**

**Item 3.8.** Provide receiving water and related information (if known). Available resources for finding the water index number (WIN) waterbody inventory/priority waterbodies list (WI/PWL) segment, water classification, and hydrologic unit code (HUC) are available on [DEC InfoLocator](#) or the [USGS website](#).

**Treatment Description**

**Item 3.9.** Specify the highest level of treatment provided for discharges from each outfall (e.g., primary, equivalent to secondary, secondary, or advanced). Also indicate the following design removals (in percent) for the following parameters for each outfall: (1) biochemical oxygen demand (BOD<sub>5</sub> or CBOD<sub>5</sub>), (2) total suspended solids (TSS), (3) phosphorus (if applicable), (4) nitrogen (if applicable), and (5) any other removals that an advanced treatment system is designed to achieve.

**Item 3.10.** Provide a description of the type(s) of disinfection used for wastewater discharged through each outfall. Indicate the seasons the disinfection type is used. Note whether the POTW dechlorinates if disinfection is accomplished through chlorination. Otherwise, check "Not Applicable."

**Effluent Testing Data and Tables A through E**

**Items 3.11 to 3.27.** These items require you to collect and report data for the parameters and pollutants listed in Tables A through E, located at the end of Form NY-2A. The instructions for completing the tables are table-specific, as are the criteria for determining who should complete them. If your facility has multiple outfalls, data should be reported for each outfall.

**Important note:** Read the "General Instructions for Reporting, Sampling, and Analysis" (2A-7 & 2A-8) before completing Items 3.11 to 3.27 and Tables A through E. An Excel workbook with each table is available on the [SPDES website](#).

**Item 3.11 and Table A.** All applicants that discharge wastewater or stormwater to waters of the State must provide effluent data for each outfall for Table A parameters. Respond "Yes" to Item 3.11 when you have completed Table A and attached it to your application.

**Item 3.12.** Answer whether the POTW has conducted any whole effluent toxicity (WET) tests during the 4.5 years prior to the date of the application on any of the facility's discharges or on any receiving water near the discharge points. If yes, continue to Item 3.13. If no, skip to Item 3.14.

**Item 3.13.** For each applicable outfall, note the number of acute and chronic WET tests conducted since the last permit reissuance of the facility's discharges or of the receiving water near the discharge points.

**Item 3.14.** Note whether the POTW has a design flow greater than or equal to 0.1 MGD. If yes, continue to Item 3.15. If no, skip to Item 3.17.

**Item 3.15 and Table B.** Answer whether the treatment works uses chlorine for disinfection, uses it elsewhere in the treatment process, or otherwise has reasonable potential to discharge chlorine in its effluent. If yes, complete Table B including chlorine. If no, complete Table B, omitting chlorine. Stormwater outfalls need not be sampled for Table B parameters.

**Item 3.16.** Answer "Yes" when you have completed monitoring for all applicable Table B parameters and attached the results to your application.

**Item 3.17 and Screen for Tables C through E.** Indicate whether one or more of the conditions apply to your POTW. If yes, continue to Item 3.18. If no, skip to Section 4.

**Item 3.18 and Table C.** Answer "Yes" to indicate you have completed wastewater outfall monitoring for all applicable Table C pollutants and attached the results to your application package.

**Item 3.19 and Table D.** Answer "Yes" to indicate you have completed wastewater outfall monitoring for Table D pollutants or additional pollutants requested by NYSDEC and attached the results to your application package. Indicate "No" if NYSDEC has informed you that sampling is not required for Table D or other pollutants.

**Item 3.20 and Additional Screen for Table E.** Answer whether the POTW conducted either (1) a minimum of four quarterly WET tests for one year preceding this permit application or (2) at least four annual WET tests in the past 4.5 years. If yes, continue to Item 3.21. If no, complete tests and Table E and then skip to Item 3.26.

**Item 3.21 and Additional Screen for Table E.** Identify the tests that were conducted. Report the results and whether you have previously submitted the results of the WET tests to NYSDEC. If results have not been previously submitted, attach the results to this application.

**Item 3.22.** Regardless of how you may have provided the results of previously conducted WET analyses to NYSDEC, indicate if any of the tests resulted in toxicity. If yes, continue to Item 3.23. If no, skip to Item 3.26.

FORM NY-2A—LINE-BY-LINE INSTRUCTIONS CONTINUED

**Item 3.23.** Describe the cause(s) of toxicity.

**Item 3.24.** Indicate if the POTW has conducted a toxicity reduction evaluation. If no, skip to Item 3.26.

**Item 3.25.** Provide details of any toxicity reduction evaluations performed.

**Item 3.26.** Answer “Yes” when you have completed Table E for all applicable outfalls and attached the results to the application package, or answer “No” if the item is not applicable because you previously submitted WET data to NYSDEC.

**Section 4. Industrial Discharges, Table G, and Hazardous Wastes**

**Item 4.1.** Indicate if the POTW receives discharges from significant industrial users (SIUs) or non-significant categorical industrial users (NSCIUs), including SIUs and NSCIUs that truck or haul waste. If yes, continue to Item 4.2. If no, skip to Item 4.7.

1. SIUs are defined as:
  - a. All industrial users subject to categorical pretreatment standards under 40 CFR 403.6 and 40 CFR Chapter I, Subchapter N (CIUs); and
  - b. Any other industrial user per 40 CFR 403.3 that:
    - i. Discharges an average of 25,000 GPD or more of process wastewater to the treatment works (with certain exclusions); or
    - ii. Contributes a process wastestream that makes up 5 percent or more of the average dry weather hydraulic or organic capacity of the treatment plant; or
    - iii. Is designated as an SIU by the control authority.
2. The control authority may determine that an Industrial User subject to categorical Pretreatment Standards under 40 CFR 403.6 and 40 CFR Chapter I, Subchapter N is a NSCIU rather than a SIU on a finding that the Industrial User never discharges more than 100 GPD of total categorical wastewater (excluding sanitary, non-contact cooling and boiler blowdown wastewater, unless specifically included in the Pretreatment Standard) and the following conditions are met:
  - a. The Industrial User, prior to the control authority's finding, has consistently complied with all applicable categorical Pretreatment Standards and Requirements;
  - b. The Industrial User annually submits the certification statement required in 40 CFR 403.12(q) together with any additional information necessary to support the certification statement; and
  - c. The Industrial User never discharges any untreated concentrated wastewater.

**Item 4.2.** Indicate the number of SIUs and NSCIUs that discharge to the POTW.

**Item 4.3.** Answer whether the POTW has an approved industrial pretreatment program (IPP) or NYSDEC Mini-Pretreatment Program. An IPP is defined at 40 CFR 403.3 as a program administered by a POTW that meets the criteria established in

40 CFR 403.8 and 403.9 and has been approved by the USEPA.

**Item 4.4.** Answer whether you have submitted either of the following to NYSDEC that contains information substantially identical to that required in Table G: (1) a pretreatment program annual report submitted within one year of the application or (2) a pretreatment program. If yes, continue to Item 4.5. If no, skip to Item 4.6.

**Item 4.5.** Identify the title and date of the pretreatment program annual report or pretreatment program referenced in Item 4.4 and skip to Item 4.7.

**Item 4.6 and Table G.** Complete Table G by providing the following information for each SIU that discharges to the POTW: (1) Standard Industrial Classification (SIC) Code; (2) name and mailing address; (3) description of all industrial processes that affect or contribute to each SIU's discharge; (4) a list of the principal products and raw materials that affect or contribute to the SIU's discharge; (5) average daily volume of wastewater discharged by each SIU, indicating the amount attributable to process flow and non-process flow; (6) whether the SIU is subject to local limits; (7) whether the SIU is subject to categorical standards and the categories/subcategories under which the SIU is subject; and (8) whether any problems (e.g., upsets, pass-through interference) have occurred at the POTW that can be attributed to the SIU in the past 4.5 years. Answer “Yes” to Item 4.6 when you have completed and attached Table G to the application package.

Note: SIUs include users that truck or haul industrial waste to the POTW. Information for these users must be provided in Table G.

**Item 4.7.** Indicate if the POTW receives or has been notified that it will receive by truck, rail, or dedicated pipe any wastes that are regulated as RCRA hazardous wastes pursuant to 40 CFR 261. If yes, continue to Item 4.8. If no, skip to Item 4.9.

**Item 4.8.** For each hazardous waste received, provide the hazardous waste number, the method by which the waste is received (e.g., by truck, dedicated pipe, rail, etc.), and the amount of waste received annually (specify units).

**Item 4.9.** Answer whether the POTW receives, or has been notified that it will receive, wastewaters that originate from remedial activities, including those undertaken pursuant to Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and Sections 3004(u) or 3008(h) of RCRA. If yes, continue to Item 4.10. If no, skip to Section 5.

**Item 4.10.** Answer whether the POTW receives (or expects to receive) less than 15 kilograms per month of non-acute hazardous wastes as specified at 40 CFR 261.30(d) and 261.33(e). If yes, skip to Section 5. If no, continue to Item 4.11.

**Item 4.11.** In an attachment to the application, provide an identification and description of the site(s) or facility(ies) at which the wastewater originates; the identities of the wastewater's hazardous constituents, as listed in Appendix VII of 40 CFR 261, if known; and the extent of treatment, if any, the wastewater receives or will receive before entering the POTW. Answer “Yes” to Item 4.11 when you have completed and attached the information to the application package.

## General Instructions for Reporting, Sampling, and Analysis

**Important note:** Read these instructions before completing Tables A through E and Section 3 of Form NY-2A.

### General Items

Complete the applicable tables for each outfall at your facility. Be sure to note the DEC Identification Number, SPDES permit number, facility name, and applicable outfall number at the top of each page of the tables and any associated attachments.

You may report some or all of the required data by attaching separate sheets of paper instead of completing Tables A through E for each of your outfalls, so long as the sheets contain all of the required information and are similar in format to Tables A through E. A Microsoft Excel workbook with each Table is available on the SPDES website and may be used in lieu of the PDF tables.

**Note for new dischargers.** Provide all information available to you at the time you complete Form NY-2A. If you do not have information to respond to an item because your facility has yet to discharge, write or type "data are not available" next to the item on the form. Note that you will be required to submit *actual* data, as a permit requirement, after your facility commences discharge.

**Note for Groundwater dischargers.** Sampling & Reporting of the following pollutants is not required:

**Table A:** BOD<sub>5</sub>, CBOD<sub>5</sub>, Fecal Coliform, TSS

**Table B:** Dissolved Oxygen.

### Reporting of Effluent Data

Where effluent data are requested, do not provide information on CSOs. The latter information is requested instead under Section 5 of Form NY-2A.

Provide data for each outfall through which effluent is discharged. When an applicant has two or more outfalls with substantially identical effluents, NYSDEC may allow the applicant to test only one outfall and report that quantitative data as applying to the substantially identical outfall. A written request should be submitted to NYSDEC prior to application. If NYSDEC grants your request, attach a separate sheet to the application form identifying the outfall tested and describing why the other outfall(s) are substantially identical.

At a minimum, effluent testing data must be based on at least three samples taken within 4.5 years prior to the date of the permit application. Where seasonal variation in the discharge is expected, provide sample results that are collected during each season. Existing data may be used, if available, in lieu of sampling done solely for the purpose of this application.

All existing data for pollutants specified in Tables A through D that is collected within 4.5 years of the application must be included in the pollutant data summary that you submit. If, however, you sampled for a specific pollutant on a monthly or more frequent basis, it is only necessary, for such pollutant, to summarize all data collected within 1 year of the application.

For any pollutants that were analyzed solely for this application and are not routinely monitored, attach the laboratory analysis reports to your application submission.

The effluent monitoring data provided must include at least the following for each parameter: (1) the maximum daily discharge based upon actual sample values, (2) average daily discharge for all samples, expressed as concentration or mass, and the number of samples used to obtain this value, (3) the analytical method used, and (4) the threshold level (i.e., method detection limit, minimum level, or other designated method endpoints) for the analytical method used. Items 3 & 4 above can be omitted if laboratory analysis sheets are attached to the application.

Metals must be reported as "total metal," unless all approved analytical methods for the metal inherently measure only its dissolved form (e.g., hexavalent chromium) or otherwise directed by NYSDEC.

Clearly specify the units of measure on Tables A through E for each parameter/pollutant analyzed. Values should be reported as concentration or mass, except for flow, temperature, pH, color, and fecal coliform organisms, unless otherwise requested or required by NYSDEC. Flow, temperature, pH, color, and fecal coliform organisms must be reported as MGD, degrees Celsius (°C) or Fahrenheit (°F), standard units, color units, and most probable number per 100 milliliters (MPN/100 mL) or coliform forming units per 100 milliliters (cfu/100mL), respectively. Use the following abbreviations in the columns requiring "units" in Tables A through D.

#### Concentration

mg/L = milligrams per liter

µg/L = microrams per liter

ng/L = nanograms per liter

MPN = most probable number

cfu = coliform forming units

#### Mass

lbs = pounds

ton = tons (English tons)

mg = milligrams

g = grams

kg = kilograms

### Sampling

The collection of samples for the reported analyses should be supervised by a person experienced in performing sampling of domestic wastewater. You may contact the Quality Assurance Section (QAS) of NYSDEC for detailed guidance on sampling techniques and for answers to specific questions. See Exhibit 2A-1 for contact information. All analyses shall be performed by a laboratory certified by New York State Department of Health under the Environmental Laboratory Approval Program (ELAP), pursuant to NYS Public Health Law 502. Sample handling and preservation requirements are to comply with 40 CFR 136 and specific analytical method guidance. Field quality control samples (e.g. sample duplicates, field blanks) may be collected to help ensure the integrity of reported sampling data.

All sampling shall be performed pursuant to 6 NYCRR 750-2.5(a) (2). The time when you sample should be representative of your normal operation, with your treatment system operating properly with no system upsets. A representative sample is one that adequately reflects the actual condition of the wastewater. The most representative sample will be drawn from a point that represents the wastewater discharged. When appropriate, that point should be at a depth where the flow is turbulent and well-mixed and the likelihood of solids settling is minimal.

**General Instructions for Reporting, Sampling, and Analysis Continued**

Grab samples must be used for pH, temperature, residual chlorine, oil and grease, coliforms (including *E. coli*), Mercury, and Enterococcus. Grab samples shall be collected as manual grab samples, not using automatic samplers. For all other pollutants, a 24-hr composite sample must be used. Composite sample aliquots may be collected manually or automatically. For a composite sample, only one analysis of the composite of aliquots is required.

For cyanide, phenols, mercury, sulfite, volatile organic compounds and any other pollutants for which composite samples may compromise the integrity of the sample, individual manual grab samples must be collected at prescribed time intervals and composited in the laboratory or analyzed separately and the concentrations averaged.

**Analysis**

Except as specified below, all required quantitative data shall be collected and analyzed in accordance with sufficiently sensitive analytical methods approved under 40 CFR 136 or required under 40 CFR chapter I, subchapter N or O. A method is "sufficiently sensitive" when:

- The method minimum level (ML) is at or below the level of the applicable water quality criterion for the measured pollutant or pollutant parameter.
- The method ML is above the water quality criterion, but the amount of the pollutant or pollutant parameter in the facility's discharge is high enough that the method detects and quantifies the level of the pollutant or pollutant parameter in the discharge.
- The method has the lowest ML of the analytical methods approved under 40 CFR 136 or required under 40 CFR chapter I, subchapter N or O, for the measured pollutant or pollutant parameter.

When there is no analytical method that has been approved under 40 CFR 136 or required under 40 CFR chapter I, subchapter N or O, you should consult NYSDEC guidance. You may contact QAS of NYSDEC for detailed guidance and for answers to specific questions.

Effluent monitoring data must comply with the QA/QC requirements of 6 NYCRR 700.2, 6 NYCRR 700.3, and 40 CFR 136.

**Further Requirements for Table E, WET Testing**

Each applicant required to perform WET testing must provide results of a minimum of four quarterly tests for a year, from the year preceding the permit application, *or* the results from four tests performed at least annually in the 4.5-year period prior to the application, provided the results show no appreciable toxicity using a safety factor determined by the Toxicity Testing Unit (TTU) of NYSDEC. See Exhibit 2A-1 for contact information.

Applicants must conduct tests with multiple species (no less than two species; e.g., fish & invertebrate) and test for acute or chronic toxicity, depending on the existing permit requirement, receiving water drainage basin (Great Lakes Basin must be Chronic Only), and/or range of receiving water dilution. See 40 CFR 122.21(j)(5)(v) for further details.

WET testing must be conducted using methods approved under 40 CFR 136.

If WET testing is conducted solely for purposes of this application, the resulting laboratory analysis reports may be attached to this application in lieu of completing Table E.

**Section 5. Combined Sewer Overflows**

**CSO Map and Diagram**

**Item 5.1.** Indicate if the treatment works has a combined sewer system. If yes, continue to Item 5.2. If no, skip to Section 6.

**Item 5.2.** Attach a CSO system map to the application. The map should indicate: (1) all CSO discharge points, (2) sensitive use areas potentially affected by CSOs (e.g., beaches, drinking water supplies, shellfish beds, sensitive aquatic ecosystems, and outstanding national resource waters), and (3) waters supporting threatened and endangered species potentially affected by CSOs. Answer "Yes" to Item 5.2 when you have completed the map and attached it to the application package.

**Item 5.3.** Prepare a diagram of the CSO collection system. The diagram should show the following: (1) the location of major sewer trunk lines, both combined and separate sanitary; (2) the locations of points where separate sanitary sewers feed into the combined sewer system; (3) in-line and off-line storage structures; (4) the locations of flow-regulating devices; and (5) the locations of pump stations. Answer "Yes" to Item 5.3 when you have completed the diagram and attached it to the application package.

**CSO Outfall Description**

**Item 5.4.** Provide the following information for each CSO outfall: (1) outfall number; (2) state, county, city or town and ZIP code in which the outfall is located; (3) latitude and longitude of the outfall, to the nearest second, (4) distance of the outfall from shore and depth of the outfall below water surface. See Item 2.3 instructions for guidance on determining latitude and longitude coordinates. The location of each CSO outfall (i.e., where the coordinates are collected) shall be the point where the discharge is released into a water of the State.

**CSO Monitoring**

**Item 5.5.** Indicate whether the POTW has monitored any of the following items in the past year for each of its CSO outfalls: (1) rainfall, (2) CSO flow volume, (3) CSO pollutant concentrations; (4) receiving water quality, (5) CSO frequency, and (6) number of storm events.

**CSO Events in Past Year**

**Item 5.6.** For each CSO outfall, record (1) the number of CSO events in the past year, (2) the average duration in hours per event, (3) the average volume per CSO event in million gallons, and (4) the minimum rainfall that caused a CSO event in inches of rainfall in the past year. Note whether your responses for sub-items (2) through (4) above are based on actual or estimated data.

**CSO Receiving Waters**

**Item 5.7.** For each CSO outfall, record the following receiving water information: (1) name of receiving water; (2) WIN, the WI/PWL segment, and Water Classification; (3) Regulatory Basin Commission (if applicable) and the USGS 8-digit HUC, if known; and

(4) a description of any known water quality impacts on the receiving water caused by the CSO (e.g., permanent or intermittent beach closings, permanent or intermittent shellfish bed closings, fish kills, fish advisories, other recreational loss, or exceedance of any applicable state water quality standard).

**Section 6. Checklist and Certification Statement**

**Item 6.1.** Review the checklist provided. In Column 1, mark the sections of Form NY-2A that you have completed and are submitting with your application. In Column 2, indicate for each section whether you are submitting attachments.

**Item 6.2.** Sign and date the application. The Clean Water Act provides for severe penalties for submitting false information on this application form. Pursuant to 6 NYCRR 750-2.5(b), "All SPDES applications shall be signed as provided in 40 CFR 122.22" and "no person shall knowingly make any material false statements, representation, or certification in any application, ...any person who violates this subsection shall be liable for violation of ECL section 71-1933 and subject to a fine and/or imprisonment thereunder."

**STATE REGULATIONS UNDER 6 NYCRR 750-2.5(b)(1) REQUIRE THIS APPLICATION TO BE SIGNED AS FOLLOWS:**

- A. For a corporation, by a responsible corporate officer. For the purpose of this section, a responsible corporate officer means: (1) a president, secretary, treasurer, or vice-president of the corporation in charge of a principal business function, or any other person who performs similar policy- or decision-making functions for the corporation, or (2) the manager of one or more manufacturing, production, or operating facilities, provided the manager is authorized to make management decisions which govern the operation of the regulated facility including having the explicit or implicit duty of making major capital investment recommendations, and initiating and directing other comprehensive measures to assure long term environmental compliance with environmental laws and regulations; the manager can ensure that the necessary systems are established or actions taken to gather complete and accurate information for permit application requirements; and where authority to sign documents has been assigned or delegated to the manager in accordance with corporate procedures.
- B. For a partnership or sole proprietorship, by a general partner or the proprietor, respectively.
- C. For a municipality, state, federal, or other public facility, by either a principal executive officer or ranking elected official. For purposes of this section, a principal executive officer of a federal agency includes: (1) The chief executive officer of the agency, or (2) a senior executive officer having responsibility for the overall operations of a principal geographic unit of the agency (e.g., Regional Administrators of EPA).

**END**

**Submit your completed Form NY-2A and all associated attachments to NYSDEC as instructed on Page 2A-1 of this application.**

# Exhibit 2A-2. Example Topographic Map

**Exhibit 2A-3. USEPA Designated Sole Source Aquifers Within New York State**

---------------------------	---------------------	---------------

<b>Treatment Description Continued</b>	3.10	Describe the type of disinfection used for the effluent from each outfall in the table below. If disinfection varies by season, describe below.					
			<b>Outfall Number</b> _____	<b>Outfall Number</b> _____	<b>Outfall Number</b> _____	<b>Outfall Number</b> _____	
		Disinfection type					
		Seasons used					
		Dechlorination used?	<input type="checkbox"/> Not applicable <input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Not applicable <input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Not applicable <input type="checkbox"/> Yes <input type="checkbox"/> No	<input type="checkbox"/> Not applicable <input type="checkbox"/> Yes <input type="checkbox"/> No	
<b>Effluent Testing Data</b>	3.11	Have you completed monitoring for all Table A parameters and attached the results to the application package? <input type="checkbox"/> Yes <input type="checkbox"/> No					
	3.12	Have you conducted any WET tests during the 4.5 years prior to the date of the application on any of the facility's discharges or on any receiving water near the discharge points? Yes <input type="checkbox"/> No <input type="checkbox"/> → SKIP to Item 3.14.					
	3.13	Indicate the number of acute and chronic WET tests conducted since the last permit reissuance of the facility's discharges by outfall number or of the receiving water near the discharge points.					
			<b>Outfall Number</b> _____	<b>Outfall Number</b> _____	<b>Outfall Number</b> _____	<b>Outfall Number</b> _____	
			<b>Acute</b>	<b>Chronic</b>	<b>Acute</b>	<b>Chronic</b>	
		Number of tests of discharge water					
		Number of tests of receiving water					
	3.14	Does the treatment works have a design flow greater than or equal to 0.1 MGD? <input type="checkbox"/> Yes <input type="checkbox"/> No → SKIP to Item 3.17.					
	3.15	Does the POTW use chlorine for disinfection, use chlorine elsewhere in the treatment process, or otherwise have reasonable potential to discharge chlorine in its effluent? <input type="checkbox"/> Yes → Complete Table B, including chlorine. <input type="checkbox"/> No → Complete Table B, omitting chlorine.					
	3.16	Have you completed monitoring for all applicable Table B pollutants and attached the results to this application package? <input type="checkbox"/> Yes <input type="checkbox"/> No					
3.17	Does one or more of the following conditions apply? <ul style="list-style-type: none"> <li>The facility has a design flow greater than or equal to 1 MGD.</li> <li>The POTW has an approved pretreatment program or is required to develop such a program.</li> <li>NYSDEC has informed the POTW that it must sample for the parameters in Table C, must sample for the parameters in Table D, must sample for other additional parameters (Table D), or submit the results of WET tests for acute or chronic toxicity for each of its discharge outfalls (Table E).</li> </ul> Yes <input type="checkbox"/> No → SKIP to Section 4.						
3.18	Have you completed monitoring for all applicable Table C pollutants and attached the results to this application package? <input type="checkbox"/> Yes <input type="checkbox"/> No						
3.19	Have you completed monitoring for all applicable Table D pollutants required by NYSDEC and attached the results to this application package? Yes <input type="checkbox"/> No <input type="checkbox"/>						

DEC Identification Number	SPDES Permit Number	Facility Name
---------------------------	---------------------	---------------

<b>Effluent Testing Data Continued</b>	3.20	Has the POTW conducted either (1) minimum of four quarterly WET tests for one year preceding this permit application or (2) at least four annual WET tests in the past 4.5 years? <input type="checkbox"/> Yes <input type="checkbox"/> No → Complete tests and Table E and SKIP to Item 3.26.			
	3.21	Identify the four most recent WET tests conducted and whether the results were submitted to NYSDEC.			
		<b>Test(s)</b>	<b>Test Results</b>		<b>Submitted to NYSDEC?</b>
			TUa	TUc	<input type="checkbox"/> Yes <input type="checkbox"/> No
			TUa	TUc	<input type="checkbox"/> Yes <input type="checkbox"/> No
			TUa	TUc	<input type="checkbox"/> Yes <input type="checkbox"/> No
			TUa	TUc	<input type="checkbox"/> Yes <input type="checkbox"/> No
		3.22	Regardless of how you provided your WET testing data, did any of the tests result in toxicity? <input type="checkbox"/> Yes <input type="checkbox"/> No → SKIP to Item 3.26.		
	3.23	Describe the cause(s) of the toxicity:			
	3.24	Has the treatment works conducted a toxicity reduction evaluation? <input type="checkbox"/> Yes <input type="checkbox"/> No → SKIP to Item 3.26.			
	3.25	Provide details of any toxicity reduction evaluations conducted.			
	3.26	Have you completed Table E for all applicable outfalls and attached the results to the application package? <input type="checkbox"/> Yes <input type="checkbox"/> Not applicable because previously submitted information to NYSDEC.			

**SECTION 4. INDUSTRIAL DISCHARGES AND HAZARDOUS WASTES (40 CFR 122.21(j)(6) and (7))**

<b>Industrial Discharges and Hazardous Wastes</b>	4.1	Does the POTW receive discharges from SIUs or NSCIUs? <input type="checkbox"/> Yes <input type="checkbox"/> No → SKIP to Item 4.7.				
	4.2	Indicate the number of SIUs and NSCIUs that discharge to the POTW.				
		<b>Number of SIUs</b>		<b>Number of NSCIUs</b>		
		4.3	Does the POTW have an approved pretreatment program? <input type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Mini-Pretreatment			
		4.4	Have you submitted either of the following to NYSDEC that contains information substantially identical to that required in Table G: (1) a pretreatment program annual report submitted within one year of the application or (2) a pretreatment program? <input type="checkbox"/> Yes <input type="checkbox"/> No → SKIP to Item 4.6.			
	4.5	Identify the title and date of the annual report or pretreatment program referenced in Item 4.4. SKIP to Item 4.7.				
	4.6	Have you completed and attached Table G to this application package? <input type="checkbox"/> Yes <input type="checkbox"/> No				

DEC Identification Number	SPDES Permit Number	Facility Name
---------------------------	---------------------	---------------

<b>Industrial Discharges and Hazardous Wastes Continued</b>	4.7	Does the POTW receive, or has it been notified that it will receive, by truck, rail, or dedicated pipe, any wastes that are regulated as RCRA hazardous wastes pursuant to 40 CFR 261? <input type="checkbox"/> Yes <input type="checkbox"/> No → SKIP to Item 4.9.			
	4.8	If yes, provide the following information:			
		<b>Hazardous Waste Number</b>	<b>Waste Transport Method</b> (check all that apply)		<b>Annual Amount of Waste Received</b>
			<input type="checkbox"/> Truck <input type="checkbox"/> Dedicated pipe	<input type="checkbox"/> Rail <input type="checkbox"/> Other (specify) _____	
			<input type="checkbox"/> Truck <input type="checkbox"/> Dedicated pipe	<input type="checkbox"/> Rail <input type="checkbox"/> Other (specify) _____	
			<input type="checkbox"/> Truck <input type="checkbox"/> Dedicated pipe	<input type="checkbox"/> Rail <input type="checkbox"/> Other (specify) _____	
	4.9	Does the POTW receive, or has it been notified that it will receive, wastewaters that originate from remedial activities, including those undertaken pursuant to CERCLA and Sections 3004(7) or 3008(h) of RCRA? <input type="checkbox"/> Yes <input type="checkbox"/> No → SKIP to Section 5.			
	4.10	Does the POTW receive (or expect to receive) less than 15 kilograms per month of non-acute hazardous wastes as specified in 40 CFR 261.30(d) and 261.33(e)? <input type="checkbox"/> Yes → SKIP to Section 5. <input type="checkbox"/> No			
	4.11	Have you reported the following information in an attachment to this application: identification and description of the site(s) or facility(ies) at which the wastewater originates; the identities of the wastewater's hazardous constituents; and the extent of treatment, if any, the wastewater receives or will receive before entering the POTW? <input type="checkbox"/> Yes <input type="checkbox"/> No			

**SECTION 5. COMBINED SEWER OVERFLOWS (40 CFR 122.21(j)(8))**

<b>CSO Map and Diagram</b>	5.1	Does the treatment works have a combined sewer system? <input type="checkbox"/> Yes <input type="checkbox"/> No → SKIP to Section 6.	
	5.2	Have you attached a CSO system map to this application? (See instructions for map requirements.) <input type="checkbox"/> Yes <input type="checkbox"/> No	
	5.3	Have you attached a CSO system diagram to this application? (See instructions for diagram requirements.) <input type="checkbox"/> Yes <input type="checkbox"/> No	

DEC Identification Number	SPDES Permit Number	Facility Name
---------------------------	---------------------	---------------

<b>CSO Outfall Description</b>	5.4	For each CSO outfall, provide the following information. (Attach additional sheets as necessary.)		
		<b>CSO Outfall Number</b> ____	<b>CSO Outfall Number</b> ____	<b>CSO Outfall Number</b> ____
	City or town			
	State and ZIP code			
	County			
	Latitude	° ' "	° ' "	° ' "

<sup>1</sup> Sampling shall be conducted according to sufficiently sensitive test procedures (i.e., methods) approved under 40 CFR 136 for the analysis of pollutants or pollutant parameters or required under 40 CFR Chapter I, Subchapter N or O. See instructions and 40 CFR 122.21(e)(3).

<sup>2</sup> Analysis for Total Recoverable Mercury must be performed utilizing the low-level, USEPA Method 1631E.

**TABLE H. FACILITY & COLLECTION SYSTEM RESILIENCY**

Pump Station Name	PS Owner	General Location	Latitude (DMS)	Longitude (DMS)	Floor Elevation (ft, NAVD88)
-------------------	----------	------------------	----------------	-----------------	------------------------------

Complete this table for all pump stations that exist at the wastewater treatment facility and within the collection system. Identify the name of the pump station, the owner of the pump station (if different than the SPDES permittee), the general location of the pump station (e.g. intersection of Green St. & Water St.), the latitude and longitude of the pump station in degrees-minutes-seconds (DMS) format, and the elevation in feet of the pump station floor (per the NAVD88 datum).

The wastewater treatment facility and collection system do not contain any pump stations.
